### OBJECTIVE

UI/UX Designer with hands-on experience in web and mobile interface design. Skilled in user-centered design, wireframing, and prototyping, with a background in Computer Science and a focus on clean, usable design solutions.

### Experience

**UI/UX Designer - Bmindz Private Limited**

Jul 2025 - present - Tiruvannamalai, Tamil Nadu.

- Designed web and mobile UI using a structured UI/UX process.
- Created wireframes, user flows, and UI screens focused on usability.
- Collaborated with developers to improve designs through feedback.

### PROJECTS

#### [Solar Exchange – Web & Mobile UI](#)

- Designed a centralized dashboard to display solar power generation, consumption, and grid status in one place.
- Simplified user flow and enabled buy/sell of excess solar power with user-defined pricing to improve usability.

#### [Chinese Restaurant Web Design](#)

- Designed a modern food ordering interface with clean layout and intuitive user flow.
- Improved mobile usability and maintained visual consistency across screens.

#### [Chatbot Website Landing Page \(Redesign\)](#)

- Redesigned an existing AI chatbot landing page to improve structure, clarity, and visual hierarchy.
- Enhanced user engagement by simplifying content flow and call-to-action placement.

### UI/UX Learning & Practice

Feb 2023 - Present

- Continuous hands-on learning through real-world projects.

### EDUCATION

BSc Software Computer Science

Shanmuga Industries Arts and Science College

2022 - 2025, Tiruvannamalai, Tamil Nadu.
